

The Role of Energy Storage in the Renovation Wave

Thursday, 22 April 2021, 14:00 – 15:30 (CEST)

Register now: [Zoom](#)

EASE is glad to invite you to a workshop on the role of energy storage in the Renovation Wave, the Strategy aimed to increase energy efficiency in buildings through renovations and innovative solutions.

During the workshop Nina Neumann, Team Leader – Legislative Development and Enforcement at the European Commission will present the Renovation Wave Strategy. Furthermore, EASE members will showcase energy community and thermal storage projects, two of the solutions contributing to the goal of the Renovation Wave.

Participants will be invited to join the discussion on the role of energy storage in the Renovation Wave, the use of camera and microphone is recommended.
