

# STUDENT AWARD 2026

Energy Storage Europe is proud to launch its eleventh annual Student Award recognising outstanding graduate student research in the field of energy storage.

## Prize

The winning student will get the chance to travel to Brussels and present their research at the Energy Storage Europe General Assembly, taking place in November 2026. Energy Storage Europe will cover transportation to and from Brussels, as well as accommodation for the winning student for one night.

→ This is a great opportunity to present your research to industry leaders and stakeholders of the energy storage sector.

## Eligibility Criteria

Applicants must either currently be enrolled as a student or have completed a program at an accredited European university between July 2025 and July 2026.

The research must focus on an energy storage-related topic. Eligible papers are Bachelor's, Master's or Doctoral research papers submitted during the above-mentioned period or ongoing. Energy Storage Europe will be able to evaluate papers written in English.

## Selection Procedure

The selection of the winning student will be performed by the Energy Storage Europe Secretariat and a selected committee of members. Students will be judged on the quality of the responses, the research design, and the relevance of the research topic to the energy storage industry. The winner will be announced at the beginning of September 2026.

## Instructions

Please complete the [application form](#) in full (personal information, abstract), attach your (draft) thesis, and return both documents to Elina Cirule: [e.cirule@energystorageeurope.eu](mailto:e.cirule@energystorageeurope.eu). Candidates who do not comply with the eligibility criteria will be disqualified.
